VI ADDITIVE (LAYER) MANUFACTURING & REVERSE ENGINEERING (AM&RE)

**The meeting between
researchers and enterprise
of the Mediterranean areas
to understand the additive
manufacturing and time
compression technique
future.**

29th -30th JUNE 2011

Palazzo Campana
P.zza Dante Osimo (AN)
ITALY

Registration is open to all is interested in
time compression techniques

29th June 2011

10.00 **Conference Registration**

10.30 Section - *Additive Manufacturing:
State of the industries of the
Mediterranean regions. Examples
and case studies*

13.00 **Lunch Break**

14.30 Section - *The Additive
manufacturing and the promotion of
cultural heritage. Examples and case
studies*

17.00 **Coffee Break**

17.30 Section *the development and
production of dental devices by AM*

18.30 conclusion

20.30 **Gala Dinner**

30th june 2011

9.00 Section -*The development of the
reverse engineering, the future of the
acceptance testing*

13.00 **Lunch Break**

14.30 Section – *The use of RE in medical
applications*

17.00 conclusion

APRI (Italian Association of Rapid Prototyping, (www.apri-rapid.it) is a non-profit association pursuing the aim of spreading technical and scientific knowledge concerning rapid prototyping processes and time compression techniques. It was set up in October 1996 and its office is in Cinisello Balsamo (MI). The members are continuously informed about national and worldwide innovations through a dedicated section of the website. The Association is an essential means, both for marketing purposes as suppliers of “Time Compression” systems or services towards effective and potential customers; both for technical support for those who are getting in touch with these innovative technologies for the first time and must choose between the different market possibilities.

Purpose of the meeting is a comparison between users and researchers on case studies of Time Compression Techniques. Oral presentations will be the opportunity for the experiences dissemination for users of the Mediterranean Area. the meeting aims to increase cultural exchanges between the Mediterranean countries.

Location and Accommodation

Osimo – (AN) Italy, P.zza Dante Palazzo campana

Osimo (<http://www.osimoturismo.it/>) is far about 20 km from port of Ancona, one of the most important ports in the Adriatic, and 25 km from the Falconara-Ancona airport. Between Osimo and Ancona there are bus connections about every thirty minutes. Few Km from the wonderful “[Riviera del Conero](#)” (

<http://www.larivieradelconero.com>), in the proximity of holy house in Loreto, near Recanati the city which gave the birth to the famous poet G. Leopardi, not far from Offagna known as a beautiful medieval town, Castelfidardo the city of the accordions and above all very close to the main city of our region Ancona.
